description

An easy-to-use ferrule chair developed to locate "face-up" ferrules in precast panels and tilt-up panels. This chair is designed to locate the (ferrule with antennae cap) to about 1 to 2mm below the panel surface when a 96mm ferrule is used. A major time saver the ferrule chair is manufactured to provide a strong, impact resistant support which is non-corrosive and having minimal exposure.

ideal for

The Panel Industry

size availability

Available to suit a 96mm ferrule for panel thicknesses of 125,150,175, 180 and 200mm

20mm EXTENSIONS

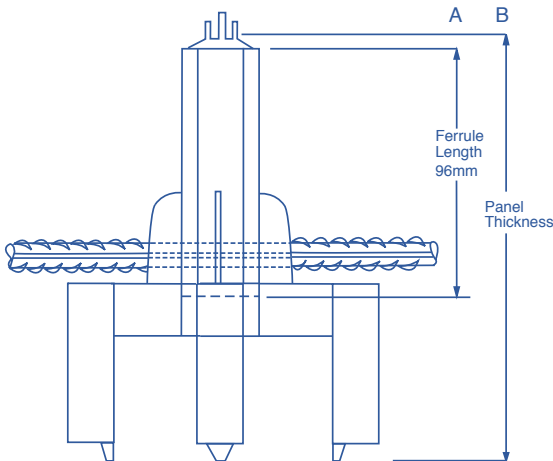

20mm CENTRAL LOCATOR

ferrule support chairs®

DIMENSIONS

Code	A	B	Number Per Bag	Mass Per Bag kg
FWSC125/96	96	125	50	3.6
FWSC150/96	96	150	50	3.85
FWSC175/96	96	175	50	4.75
FWSC200/96	96	200	50	5.3

*Antenna cap located with 1 to 2mm clearance for screeding.

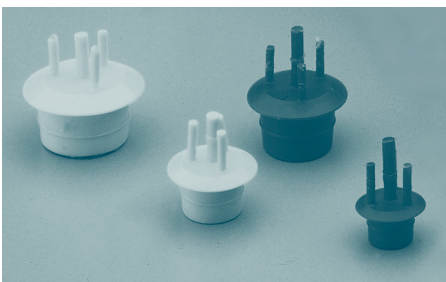

Packed in bags of 50.

All dimensions are nominal and expressed in millimetres.

Note: Other ferrule lengths and widths can be accommodated subject to volume and timing.

Code	A	Number Per Bag	Mass Per Bag kg
FWSCEXT	20mm Extension (4 required per chair)	100	.650
FWSCLOC20	20mm Central Locator (1 required per chair)	50	.500

ANTENNAE CAPS

Designed to protect the threads of ferrules while pouring and screeding. Provides effective seal through a tight push fit and a ridge which locks into the thread.

Code	Colour	Height mm	Number Per Bag	Mass Per Bag kg
FWAC12	Red	12mm	100	0.1
FWAC16	Green	16mm	100	0.1
FWAC20	Blue	20mm	100	0.2
FWAC24	Yellow	24mm	100	0.2

Note: Sizes are colour coded for easy reference.
