EASY CLIP-ON
For easier steelfixing

RUST FREE
Avoids rust migration

GREY
To match concrete

CLIP-IN BASES
Also available

MINIMAL EXPOSURE
Small foot configuration

description

The extensive range of Modfix Fast Clip-on Barchairs (FCB's) are designed to make steelfixing and traceability easier, with each chair identified by cover.

They are made from quality materials and come in two head sizes to accommodate different bar sizes, one for bar 4mm to 20mm and the other for bar 20mm to 36mm. The convenient, economical range is designed for minimal exposure and coloured grey to match the concrete.

Greater stability and less exposure can be achieved where necessary with the use of clip-in bases, available in two heights, 15 and 25mm.

ideal for

- Precast and Tilt-Up
- Suspended decks
- Beams, walls and panels.

size availability

Both head sizes available in 15, 20, 25, 30, 35, 40, 45, 50, 60, 65 and 75mm cover.

-Bases allow extra heights of 15 and 25mm.
(Suits mesh chairs as well.)
